Model 30

Sliding flat tray for passing documents up paper size DIN A4 and rolls of coins up to a diameter of 30 mm. The sliding tray is automatically locked in both end positions, on the customer's and the teller's side. Also available in safety-class M3.

Design

Frame made of two millimetre brushed stainless steel. The tray consists of a special material, while the trough is made of 3 mm deep-drawing plate. The tray and trough come in a blackish brown baked-on enamel finish.

Outside dimensions

Width	450 mm
Depth	600 mm
Height	63/68 mm
Height M3	73/78 mm

Inside dimensions

Width	335 mm
